

Overdue feedback: We have been waiting for a number of elements to come together before feeding back information, but decided it would be good to let you know what we have so far.

- As of 22nd August, Helmdon has not sold,
- Around £155k sitting in the TVC account.
- It has been suggested that we look at a 'Phase Build'.

This means we gain consent for the whole building, but start by building only the main auditorium with some additional multipurpose rooms, kitchen area and main entrance.

Before we can advise of accurate cost, the architects (Allen Associates) will be meeting with South Northants Council planning to discuss the application, and from that look at the cost of a phase build. We will then bring to the church a recommendation along with a indicative budget.

Public Consultation

Monday 29th August 2011 has our first 'open to the public' consultaion with the new plans. There will be feedback forms, also the oppotunity for local service users to register interest for their use of the building. Feedback will be collated and fed back to the build team.

How would you like to be
part of the team???
